### THE LECTURE FORUM REGISTER EARLY!

Exhibitors have the opportunity to present their own example of best practice at the **MOULDING AREA Forum** during METAV 2018.

Please note that there is only a restricted number of places available for the Lecture Forum.

Right at the heart of the largest industrial conurbation in Europe, and therefore with innumerable users of metal technologies right on its doorstep, **METAV** – and, with it, the **MOULDING AREA** – is ideally integrated in the economic structures of its industrial nucleus, the Ruhr area. The immediate proximity of the Benelux states to these industrial centres further defines **METAV** at its Düsseldorf location as highly relevant for the branch, besides generating growing demand potential there too.

### Partners of the MOULDING AREA:

The VDW trade fair team can advise you on all aspects of a successful trade fair participation. Many years of experience with a large number of exhibitions and events perfectly lay the organisational ground for your presentation at the **MOULDING AREA** during **METAV**. Our team is on hand to assist you with help and advice of whatever kind.

**We look forward to our talks with you!**
